

Occupational Health and Safety Awareness Training

Duration: 1 Day

Mode: Online / Classroom / On-Site

Certification: QLSS Certificate of Completion

Course Introduction

Occupational Health and Safety (OHS) Awareness Training is designed to educate employees on recognizing, avoiding, and addressing workplace hazards. It supports the creation of a safe, healthy, and productive work environment by building awareness of safety responsibilities, ergonomics, industrial hygiene, and preventive measures.

This training aligns with regulatory expectations and international practices to reduce accidents, occupational illnesses, and lost work time. It is suitable for both office and shop-floor employees in IT and mechanical domains.

Pre-requisites

- Open to all employees
- No prior health or safety training required
- Recommended for both new joiners and existing staff

Learning Objectives

- Understand common workplace hazards and health risks
- Identify roles and responsibilities in ensuring safety
- Promote early reporting and hazard observation
- Gain awareness on ergonomics and lifestyle impacts
- Learn about emergency response and first aid basics
- Contribute to a culture of safety and health at work

Course Agenda

1. Introduction to Occupational Health and Safety

- Importance of workplace safety and employee health
- Legal requirements and employee rights

2. Types of Hazards

- Physical, chemical, biological, and ergonomic hazards
- Common injuries in IT and mechanical environments

3. Ergonomics and Workstation Safety

- Correct posture, stretching, and movement habits
- Workstation setup and preventive actions

4. Occupational Illness and Stress

- Early signs of fatigue, burnout, or repetitive strain
- Lifestyle awareness and mental wellbeing tips

5. Emergency Preparedness

- Fire safety basics, evacuation drills
- First aid, injury response, and reporting procedures

6. Building a Culture of Health and Safety

- Daily habits for clean, safe workspaces
- Communication and safety observations

What You'll Receive

- QLSS Certificate of Completion
- Training Material / Handout (PDF Format)
- Final Assessment and Evaluation Report

Who Should Attend

- All employees across office and factory setups
- Health & Safety Committee Members
- HR, Admin, Facilities, and Operations teams
- Safety Officers, Supervisors, and Floor In-charges

Trainer Profile

Our occupational health trainers are certified professionals with hands-on experience in workplace safety, industrial hygiene, and employee wellbeing. They bring practical knowledge from IT parks, factories, and service sectors to make the sessions engaging and action-oriented.

Instructional Methodology

- Visual presentations and real-life examples
- Interactive group discussions and quizzes
- Safety videos and workplace assessment checklists
- Scenario-based drills and knowledge checks

What Makes QLSS OHS Training Unique

- Custom-tailored for IT and industrial environments
- Focused on practical workplace examples and risks
- Delivered by experienced health & safety professionals
- Includes behavior-based insights and best practices
