

First Aid and Basic Life Support (BLS) Training

Duration: 1 Day

Mode: Online / Classroom / On-Site

Certification: QLSS Certificate of Completion

Course Introduction

First Aid and Basic Life Support (BLS) Training provides employees with the critical knowledge and hands-on skills required to respond effectively during medical emergencies such as fainting, bleeding, burns, fractures, cardiac arrest, and choking. This course is essential for preparing workplace first responders and enhancing overall safety preparedness in IT offices, factories, warehouses, and field locations.

Pre-requisites

- Open to all employees
- No prior medical training required
- Suitable for floor supervisors, ERT teams, and safety coordinators

Learning Objectives

- Understand the principles of first aid and BLS
- Assess a medical emergency and respond with confidence
- Perform CPR and recovery techniques (adult-focused)
- Apply first aid for wounds, burns, fractures, and shock
- Coordinate with emergency medical services effectively

Course Agenda

1. Introduction to First Aid and Emergency Response
 - Golden hour and emergency priorities
 - Legal and safety considerations for responders
2. Patient Assessment and Scene Safety

- Responsive vs. unresponsive victim
- Airway, breathing, circulation (ABC) check

3. Cardiopulmonary Resuscitation (CPR)

- CPR steps for adults (hands-on demo)
- Use of AED (Automated External Defibrillator)

4. First Aid for Common Injuries

- Cuts, wounds, bleeding control
- Burns, fractures, sprains, and choking

5. Medical Emergencies and Shock

- Heart attack, stroke, seizure, fainting
- Recovery position and patient monitoring

6. Emergency Activation and Documentation

- Emergency contact protocols
- First aid report writing and follow-up

What You'll Receive

- QLSS Certificate of Completion
- Training Material / Handout (PDF Format)
- Final Assessment and Evaluation Report

Who Should Attend

- Floor supervisors and shift leads
- Emergency Response Team (ERT) members
- HR, Admin, and Security staff
- Factory workers, IT professionals, and general employees

Trainer Profile

Our certified First Aid and BLS instructors bring experience in emergency medical response, occupational health, and industrial safety. They deliver practical, hands-on

training aligned with national and international first aid protocols, ensuring readiness for real-life situations.

Instructional Methodology

- Hands-on demos with CPR manikins and first aid kits
- Group participation and skill drills
- Live scenario simulations and Q&A
- Visual aids and printed reference sheets

What Makes QLSS First Aid & BLS Training Unique

- Practical, high-impact emergency training
- Aligned with industry protocols and emergency services
- Delivered by certified health and safety professionals
- Enhances life-saving readiness across workplaces
