

Happiness and Wellbeing at Work Training

Duration: 1 Day

Mode: Online / Classroom / On-Site

Certification: QLSS Certificate of Completion

Course Introduction

Employee wellbeing and happiness are increasingly recognized as key contributors to productivity, creativity, and employee retention. This training helps individuals build awareness, habits, and practices that foster mental resilience, emotional balance, and a positive workplace culture.

The session draws upon behavioral science, emotional intelligence, mindfulness, and workplace psychology to create a more engaged, purpose-driven, and healthier workforce.

Pre-requisites

- Open to all employees and management
- No prior background required
- Suitable for professional and personal growth

Learning Objectives

- Understand the concept of workplace wellbeing
- Recognize signs of stress, burnout, and disengagement
- Learn simple daily practices to boost happiness and focus
- Explore the role of gratitude, purpose, and mindfulness
- Build emotional resilience and manage negative thoughts
- Foster a culture of kindness, empathy, and positivity
